

1712 Mount St.

Dec 5. 1867

Dear Mr.

I do not believe that  
Lord Byron wrote the  
enclosed. It looks as if it  
had been letter-popped from  
an animal. It is true that  
in August 1813, Byron  
did live in Bennet St.

There is, of I recollect  
rightly, exactly such a  
letter in the Imperial  
Library at Paris, alongside  
of some clever imitations  
of Shelley, written by a pen.  
Yours

The seal is suspicious -  
it looks like an  
impression from a  
bread-seal.
